Graduate of Higher Diploma in Early Childhood Education (2023)

Now a teacher at a local kindergarten

In the blink of an eye, two years of Tung Wah College ECE life has passed. I learnt a lot in ECE subject from the child development to the principles and strategies for children with diverse educational needs. The study of kindergarten education policies in Hong Kong and global cultural influence have enabled me to deal with problems more objectively and critically. I am pleased to apply the ECE knowledge and theories during my practicums and the teaching life. Contemporary pedagogies, such as Theme teaching, Project Approach, High Scope and Montessori were also learnt which build up my confidence in lessons planning, learning corner setting, lesson having, discipline management, reflection, communication with parents and support for the special educational students. These two years were the most wonderful study journey in my life. I would like to thank so much my patient and professional teachers who motivated us to study global ECE knowledge, as well as inviting a lot of experienced specialists, arrange meaningful visits and organising ECE relate seminars for us.
