Taking advantage of the acknowledged strengths and expertise of TWGHs in medical and health, education, and social services, TWC aspires to become a renowned privately-funded university and a University of Applied Sciences recognised for high quality programmes focusing on practical application for both for-profit and non-profit organisations, while nurturing students to be caring citizens with a sense of social responsibility.

### 2011年正式註冊成為一所可頒授學士學位的專上學院，命名為東華學院

Founded in 1870, the Tung Wah Group of Hospitals (TWGHs) has been providing medical and health, education, and community services to fulfil the needs of Hong Kong society for 154 years. Being one of the largest charitable organisations in Hong Kong and a major provider of primary and secondary education for almost one and a half centuries, TWGHs took the pioneer step and collaborated with The Chinese University of Hong Kong (CUHK) in 2005 to establish "The Chinese University of Hong Kong – Tung Wah Group of Hospitals Community College" (CUTW), providing post-secondary education for the first time. Registered under the Education Ordinance (Cap. 279), CUTW offered a wide range of quality associate degree programmes, providing secondary school graduates with an effective pathway leading to further education as well as career development.

創建於1870年的東華三院，是香港歷史最悠久及最具規模的慈善機構之一，並在過去154年為香港市民提供切合社會需求的各項醫療衛生、教育和社會福利服務。東華三院在接近一個半世紀以來，一直為香港社會提供優質的中、小學教育服務，是本港主要的辦學團體。東華三院於2005年，與香港中文大學合作，成立「香港中文大學—東華三院社區書院」（下稱「中東書院」），首次將其教育服務範圍擴展至專上教育。「中東書院」於《教育條例》（第279章）下註冊成立，並開辦各項優質副學士學位課程，為中學畢業生提供升學和就業的晉階途徑。

With the experiences gained in offering post-secondary education through CUTW, TWGHs took a further step and established a self-financing tertiary education institution, Tung Wah College (TWC) in 2010. The College went through the rigorous college-wide accreditation and passed the Institutional Review (IR) by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) in the same year. TWC registered under the Post Secondary Colleges Ordinance (Cap. 320) as an approved self-financing bachelor's degree-granting institution in 2011, and offered its first undergraduate programme "Bachelor of Business Administration (Hons)" and "Higher Diploma in Nursing" in September of the same year. Since then, the College's programmes have been diversified, providing greater flexibility and accessibility for secondary school graduates, to meet both our students' educational needs and society's needs for talents. At the same time, CUTW ceased its operation on 31 August 2013, thereby completing its historic mission.

憑藉營運中東書院所積累的專上教育服務經驗，東華三院於2010年再邁進一步，以自資方式，成立一所高等教育學府——「東華學院」，並於同年成功通過「香港學術及職業資歷評審局」一連串嚴格的學院評審。學院於2011年根據《專上學院條例》(第320章)正式註冊成為一所擁有頒授學士學位資格的專上學院，並於同年9月開辦首個學士學位課程——工商管理(榮譽)學士及護理學高級文憑。其後，學院積極發展多元化及具靈活性的課程，以滿足社會對教育及人才的需求。與此同時，中東書院亦於2013年8月31日停辦，完成其歷史使命。

## Message from the Chairman of Board of Governors 校董會主席的話

This decade has seen a significant breakthrough in technology. The rapid advancements in artificial intelligence, have transformed almost every aspect of our lives. Among these, the impact on the realm of education has been profoundly far-reaching.

I am delighted to witness how Tung Wah College (TWC) has capitalised on technology to improve its programme content and curriculum design. The establishment of its first research centre in January 2024, the Translational Research Centre for Digital Mental Health, stands as a testament to TWC's forward-looking educational philosophy. The centre, the first of its kind in Hong Kong, is set to bring in great minds from different fields to conceive real-world solutions based on the evidence-based and interdisciplinary digital mental health research they conduct.

In fact, well before the launch of the centre, TWC academics have been at the forefront of related research and projects, such as the study of digital inclusion for the elderly, the promotion of gerontechnology, and the development of virtual reality games to train healthcare students. These initiatives exemplify TWC's strength in creating, transferring and translating knowledge, an indispensable quality TWC has possessed throughout its 14-year history.

In addition to technology, the above examples share one thing in common – they all centre around the well-being of the community, from the mental health of the public at large to the care for the elderly. By cultivating a benevolent mindset among students and equipping them with the necessary techniques, TWC is fostering a more harmonious and inclusive world in which everyone, regardless of age, can thrive. This is especially crucial for our ageing society. TWC's people-oriented approach to adopting technology reassures me that the TWC community will always prioritise the public interest when harnessing any new educational tools.

在這個數碼年代，科技發展一日千里，人工智能的革新更是屢有突破，為我們的生活日常，帶來大大小小的變化；而對教育界的影響，尤其深遠。

我喜見東華學院（學院）善用科技，改進課程內容和設計。2024年1月，學院成立其首個科研中心 - 「數碼精神健康轉化研究中心」，為本港第一間聚焦數碼精神健康的研究所，開創先河，足證學院高瞻遠矚的教學理念。中心致力匯聚不同範疇的專家，進行跨學科兼實證為本的研究，繼而轉化結果成可實際應用的良方，以解決社會問題。

早在中心開幕前，校內學者已推行多個科技相關的研究和項目，如了解數碼共融對長者的裨益、促進樂齡科技的應用，以及為培訓醫護學生而開發的VR遊戲等，彰顯學院創校14年來，於創造、傳授和轉化知識的實力。

除了科技，上述例子亦有另一共通點 — 對社區整體健康的關注，包括大眾心理健康和長者福祉。透過培育學生關愛的心，並教授實用技能，學院竭力締造和諧共融的社會，讓所有人，不論年齡，皆可發揮所長，活出意義。這對於人口老化的香港，極為重要。從學院以人為本的辦學態度，我深信師生往後採納嶄新教學方式時，將續以公眾利益為重。

I am immensely impressed by how TWC's positioning fulfils all four core missions of TWGHs, namely, to heal the sick and to relieve the distressed; to care for the elderly and to rehabilitate the disabled; to promote education and to nurture the youngsters; and to raise the infant and to guide the youth. As an educational institution, its wide-ranging courses, with a specialty in healthcare, have over the years nurtured professionals who are adept at serving various sectors of the community. This commitment not only benefits those in need but also inspires young people to embrace these missions, encouraging them to pursue careers that contribute to the greater good, influence others, and pass on these values in the future.

TWC is a unique member of our TWGHs family. While the TWGHs Board of Directors has been rendering TWC our full support, I would like to call upon members of both the public and private sectors to join us in propelling its development. Your patronage is much needed at this significant moment as TWC makes strides towards becoming a private university and a University of Applied Sciences.

Achieving such a remarkable milestone in just 14 years is a notable accomplishment. I would like to express my heartfelt gratitude to the government for its staunch support along the way. I am also grateful to all former members of the Board of Directors of TWGHs, Board of Governors, and College Council for their valuable advice and contributions. As we come together to celebrate the excellence of TWC, let us applaud the dedication of all its students, alumni, faculty members, and staff. Under the leadership of the impending BoG Chairman, TWC will certainly continue to shine.

學院的定位，體現出東華三院「救病拯危、安老復康、興學育才、扶幼導青」四大使命，我深受鼓舞。學院開辦的課程涵蓋眾多專業領域，並以醫護學科著稱，在過去多個寒暑，培育出擅長服務社會各階層的專業人員，不僅惠及有需要人士，還啟發青年秉承共同信念，投身造福人群的行業，把這些價值觀推而廣之。

作為東華三院的成員，學院的地位獨特，一直以來獲東華三院董事局的鼎力支持。我誠邀各界市民和公私營機構，攜手推動學院的發展。學院正邁向升格私立大學及應用科學大學的目標，在這關鍵時刻有您同行，將予學院莫大的動力。

在短短14年間，學院奠下如此重大的里程碑，成績斐然。在此，我衷心感謝政府的支持。學院亦經常受益於東華三院歷屆董事局成員、校董會、校務委員會的寶貴意見和貢獻，我謹此致謝。學院的輝煌成就，實有賴學院學生、校友、教學團隊和職員的努力。在來屆校董會主席的領導下，學院必定繼續發光發亮。

## Message from the Chairman of College Council 校務委員會主席的話

Education is not only about the dissemination of knowledge, but also about inspiring young minds and leading to societal progress. As the Chairman of the College Council of Tung Wah College (TWC), I have always been deeply concerned about the advancement of the tertiary education sector in Hong Kong, committed to planning the College's blueprint to fulfil the important mission of nurturing talents and benefiting society.

In recent years, the Hong Kong Government has been strongly promoting the development of Vocational and Professional Education and Training (VPET), as a pathway parallel to traditional academic education. VPET aims to cultivate more professionals equipped with applied knowledge and skills for society. The development of applied degree programmes further diversifies the progression pathway for young people, empowering them to showcase their talents across different fields and thrive in various professions.

TWC has achieved fruitful results in promoting the progress of VPET and applied degree programmes in Hong Kong, which I am truly delighted by these accomplishments. Notably, our two programmes, Bachelor of Science (Honours) in Applied Gerontology and Bachelor of Health Information and Services Management (Honours), have been selected for the Government's Pilot Project on Development of Applied Degree Programmes. This recognition not only underscores the teaching quality of the College, but also affirms the potential of our students in the future.

教育不僅是知識的傳承，更是啟迪青年心靈，引領社會進步的關鍵。身為東華學院校務委員會主席，我一直心繫香港高等教育界的前景，並積極規劃學院的藍圖，履行培育人才、造福社會的重要使命。

近年，香港政府大力推動職業專才教育（職專教育），與傳統學術教育雙軌並行。職專教育為社會培育更多具備應用型知識和技能的專才，而應用學位課程的發展進一步為年青人開拓多元出路，讓他們能夠在不同領域中展現才華，實現行行出狀元的目標。

學院在推動香港職專教育和應用學位課程進程方面，取得不少佳績，使我感到由衷欣喜。學院所開辦的應用老年學，以及醫療資訊及服務管理兩個課程，先後獲納入政府應用學位課程先導計劃。這不僅是對學院教學品質的認可，也是對學生未來發展潛力的肯定。

The College places a strong emphasis on imparting both knowledge and theory and enhancing students' practical skills. Through forging close ties with industry partners, the College offers students ample internship opportunities, helping them gain valuable learning experiences on and off campus. The College equips students with practical skills integrated with professional knowledge, laying a solid foundation for their future career growth. We enable students to quickly adapt to work environments after graduation, and enhance their teamwork and communication skills, thereby cultivating more outstanding talents for society to stimulate industrial growth. Furthermore, we focus on nurturing students' innovative thinking, problem-solving skills, and global perspectives to prepare them as future leaders who are competent in navigating challenges in an era of rapid changes.

TWC is actively pursuing a private university and a University of Applied Sciences (UAS) status in a parallel track, and has become an associate member of the "Alliance of Universities of Applied Sciences". These progresses undoubtedly bring better opportunities for the College, and inspire us to devote more enthusiasm to education services by fully leveraging our strengths.

Our future direction aims to elevate teaching quality and social impact to meet the evolving societal demands, positioning TWC as a strong force in Hong Kong's tertiary education sector. As the College continues to thrive, I am deeply grateful for the selfless dedication of the TWGHs Board of Directors, Board of Governors, College Council, and all TWC members. I also extend my heartfelt gratitude for the steadfast support from various institutions and partners of the College. I eagerly anticipate our continued collaboration to make more significant contributions to the education sector and give back to society.

We firmly believe that through unwavering efforts, passionate commitment, and robust support from all sides, TWC will continue to shine brightly in Hong Kong's tertiary education sector, nurture more talented individuals with potential, and drive the vigorous development of education in Hong Kong. In the days ahead, I look forward to witnessing the College achieve more milestones in the field of education, create more positive impacts on society, and co-create a better journey.

The College offers applied degree programmes to equip students with the necessary skills and knowledge. It provides students with scholarships, internships, and job opportunities. TWC encourages community engagement and leadership, preparing students to positively impact Hong Kong and beyond.

## Student Admission

Despite declining student numbers in Hong Kong, our admissions numbers increased from 3,542 in 2022/2023 to 3,829 in 2023/2024, and 4,582 in 2024/2025. The College promotes our programmes via social media and collaborated with institutions to recruit non-local students in Mainland and the Region. We launched TWC's first School Principal's Nomination Scheme in Chinese Mainland and participated in higher education exhibitions to boost non-local student admissions.

## Student Achievements

In the 2023/2024 academic year, the College awarded HK\$14.71 million in scholarships to 500 students for their academic and extracurricular excellence, tripling the amount from the previous year. In 2024/2025, 824 scholarships and awards amounted to HK\$24.18 million were awarded to 716 students, which is a record high. Following the 2022/2023 academic year, TWC students earned the "Outstanding Service Awards for Tertiary Students" for the second consecutive year in the 2023/2024 academic year, recognising their community service contributions. The award is presented by the Hong Kong Outstanding Tertiary Students' Services Association and the Hong Kong Student Services Association. Our students demonstrated leadership and compassion in their service to society.

## Graduate Employment

TWC graduates are competitive in the job market. The 2024 survey shows a median monthly income of HK\$34,924, a 2.4% increase from 2023. Nearly 90% of TWC's graduates entered medical and healthcare fields. This growth highlights the College's focus on practical skills. Our graduates are highly sought after.

## Campus Development

The three existing campuses can no longer accommodate the growing student population. In September 2024, the College opened a new campus in Tsim Sha Tsui to improve student learning facilities. From September 2025, Kwai Hing Campus has a new extension. We also proactively seek to establish a comprehensive new campus within the Northern Metropolis University Town to expand teaching and research space and enhance education quality.

與學術部門、教職員、專業團體與業界夥伴合作，以參與式教學法促進學生深度學習，發展專業知識。

東華學院致力協助學生實現學術目標，為社會作出寶貴貢獻。學院提供應用學位課程，使學生掌握專業技能與知識，並通過獎學金、實習及就業機會為學生加強支援。同時，學院積極推動社區參與，培育學生的領導才能，裝備學生成為於本地以至其他地區具正面影響力的專業人才。

## 收生人數

本港整體學生人數雖有所下降，但學院的收生人數則仍錄得逆勢增長。學院的總學生人數由2022/2023學年的3,542人，增加至2023/2024學年的3,829人，再上升至2024/2025學年的4,582人。學院於社交媒體推廣各個課程，亦與其他機構合作招收各地非本地生，並於內地推行首個「校長推薦計劃」，及參與多場高等教育展覽，開拓非本地生生源。

## 學生成就

在2023/2024學年，學院頒發港幣1,471萬元獎學金予近500位學生，表揚他們在學業和課外活動的卓越表現，對比上學年激增三倍。2024/2025年度頒發獎學金獎項共824個，獎學金總金額高達港幣2,418萬元，獲獎同學達716位，創歷年新高。另一方面，繼2022/2023學年後，學院於2023/2024學年連續第二年有學生榮獲「傑出專上學生服務獎」，該獎項由香港傑出專上學生服務協會和香港學生事務協會頒發，以表揚他們對社會服務的傑出貢獻，充分展現東華學院學生在服務社群方面的領導才能及關愛之心。

## 畢業生就業前景

學院的畢業生在職場上極具競爭力。2024年的畢業生調查顯示，學院的畢業生月入中位數為港幣34,924元，比2023年上升2.4%，而接近九成的畢業生投身醫護界。此增長突顯學院的課程著重應用實踐，學院的畢業生廣受歡迎。

## 校園發展

原有的三所校舍已不足以配合學生的人數增長。有見及此，學院於2024年9月正式啟用尖沙咀新校舍，以優化學生的學習環境。2025年9月起，葵興校舍亦作擴充。學院亦積極爭取於「北都大學教育城」興建綜合型新校舍，開拓更多教學及研究空間，進一步提升教研質素。

## Finance and Donations

The College demonstrated robust financial performance in the 2023/2024 fiscal year, marking its tenth consecutive year of surplus. We received more than HK\$14.9 million donation. These donations play a vital role in supporting teaching, research, student development, and campus improvement initiatives. Fundraising activities are ongoing, with the objective of supporting long-term growth strategies.

With the support of the Tung Wah Group of Hospitals Board of Directors 2023/2024, King's Park and Kwai Hing Campuses have been equipped with an Emergency Care Training Station featuring a LUCAS device. In addition, a Repetitive Transcranial Magnetic Stimulation (rTMS) System has been acquired for King's Park. These technological advancements significantly enhance our educational capabilities.

## Scholarly Activities

Tung Wah College focuses on applied research. We showcase our growing research capabilities by launching Hong Kong's first Translational Research Centre for Digital Mental Health (TRC-DMH), our inaugural research centre. The Centre focuses on digital mental health research and interdisciplinary studies to enhance mental well-being and benefit society.

The College obtained research grants exceeding HK\$40 million in the 2023/2024 academic year, surpassing its previous record. Additionally, inter-institutional projects have been advanced, such as collaborating with Hong Kong Shue Yan University to develop a National and Values Education (NAVE) Online Learning Platform, and creating healthcare Virtual Reality (VR) simulation teaching games with Hong Kong Metropolitan University and Saint Francis University. Stanford University has recognised five scholars from the College as part of the top 2% scientists. The College intends to continue recruiting scholars with significant research expertise to enhance its capabilities.

## 財務及捐款

學院在2023/2024財政年度表現穩健，連續第十年取得盈餘。學院衷心感謝各界善長慷慨支持，共獲捐款逾港幣1,490萬元。這些捐款對學院在教學、研究、學生發展、改善校園設施等方面的支持可謂舉足輕重。學院正繼續積極進行籌募活動，旨在實踐學院的長遠發展策略。

學院感激東華三院癸卯年董事局熱心匡助，分別於京士柏校舍及葵興校舍增設緊急護理訓練站及自動心外壓儀器相關設備，並於京士柏校舍添置定位腦磁激療法系統。這些先進的教學儀器有助顯著提升學院的教學水平。

## 學術活動

應用研究是東華學院的重中之重，透過成立香港首個「數碼精神健康轉化研究中心」，學院展示了不斷增長的研究實力。這也是學院首個研究中心，專注推廣數碼精神健康研究和跨學科研究，從而提升公眾的精神健康，造福社會。

學院在2023/2024學年獲得的研究撥款超過港幣4千萬元，創下學院歷史新高。學院同時積極推動跨院校合作項目，如與香港樹仁大學合作發展「國民及價值觀教育在線學習平台」，以及與香港都會大學及聖方濟各大學開發健康護理虛擬實境教學遊戲。學院現有5位學者榮登美國史丹福大學全球首 2% 頂尖科學家名單，學院將繼續招攬在研究領域表現出色的學者加入教研團隊，以進一步增強學院的研究實力。

## 國際化、業界合作及社區參與

technologies. The School of Nursing organised the “Interdisciplinary Conference in Health Care Science,” focusing on global health issues.

The College partners with institutions at all levels to support student exchanges, mobility programmes, internships, talent development, academic-industry collaboration, and education advancement locally and globally.

## Applying for Private University Title and Qualifying as a University of Applied Sciences

The College is an associate member of the “Alliance of Universities of Applied Sciences.” We collaborate with alliance members to enhance Vocational and Professional Education and Training (VPET) in Hong Kong. By partnering with local and international universities, we aim to advance Universities of Applied Sciences (UAS) in Hong Kong and develop industry talent through global VPET systems.

In August 2025, TWC successfully completed its third Programme Area Accreditation (PAA) for Applied Social Sciences, following its second PAA for Biological Sciences in August 2024. The College is applying to become a private university and a UAS. I am confident that TWC’s commitment to academic excellence and innovation will be recognised in its application to become a university and a UAS. This milestone will not only elevate TWC but also enrich the higher education landscape for future generations in Hong Kong and beyond.

#### 成立「數碼精神健康轉化研究中心」及舉辦首個公開講座

TWC received a grant of nearly HK\$3.5 million under the Institutional Development Scheme Research Infrastructure Grant for the establishment of the Translational Research Centre for Digital Mental Health (TRC-DMH). As the first of its kind in Hong Kong, TRC-DMH strives to be a leading regional research centre in digital mental health. It brings together academics, industry partners, and students from diverse fields to accelerate the translation of research outcomes into real-world solutions through evidence-based and interdisciplinary digital mental health research.

The Official Opening Ceremony of TRC-DMH cum Public Lecture was held at King's Park Campus on 12 July 2024. Professor Sally Chan delivered the welcoming remarks and said, "This event marks a significant milestone for Tung Wah College on its path to becoming a private university. TRC-DMH is an interdisciplinary translational research platform dedicated to advancing innovative digital mental health research."

學院獲研究資助局「院校發展計劃研究基礎設施撥款」資助近港幣350萬元，成立「數碼精神健康轉化研究中心」（研究中心）。作為香港首個同類型的研究中心，它致力成為區內領先的數碼精神健康轉化研究中心，匯聚來自不同領域的學者、業界夥伴和學生，透過實證為本、跨學科的數碼精神健康研究，促進研究成果的轉化和應用。

開幕典禮暨公開講座於2024年7月12日在京士柏校園舉行，陳慧慈教授致辭時表示：「研究中心的成立，標誌著東華學院在邁向私立大學的過程中，踏出意義重大的一步。研究中心將作為跨學科的研究轉化平台，致力於推進創新的數碼精神健康研究。」
